As individual as you

Child Catalogue - Sixth Edition

Welcome

As a family business, we recognise that choosing a casket for a baby or child's final journey will be one of the hardest things a parent ever has to do.

To help, we've selected some of our best-loved and most popular designs, many of which feature characters and colourful images to remember a very special life taken too soon.

We can also design a completely unique casket, for example, featuring favourite drawings or photographs, so please talk to us directly or via your funeral director.

And, as a special touch for younger children, we always include our very own Journey Bear to provide comfort for the final journey.

“Dear Kevin and Mary

One phone call changed despair and grief in trying to find what we needed to help us say goodbye.

Little Jack loved his favourite character and spent his time in puddles.

To have the perfect casket for him meant so much. His mum and dad could not have asked for better. Thank you is inadequate. Your job is the most difficult helping people in their grief and bringing them the most joyful resting place, I don't think you realise what a beautiful thing to do. It made our sadness have a smile and everyone just was able to bear the loss a little easily. You really don't know how amazing you are.”

Thanks again for your help. ”
